

SAFELOCK COUPLING

FEMALE COUPLING

MALE COUPLING

Streamlined and positive locking, suitable for Air, Gas and Water service.

Fully interchangeable with 'Quicklock', 'Dixlock', 'Adlock', 'MacDonald', 'Cleco' and 'Bowes' couplings.

Available in the following sizes: 1/2", 3/4", 1", 1.1/4" and 1.1/2", with either integral hose tail, male or female threaded connections. Coupling and connection sizes may be mixed to increase non-interchangeability options, eg 1" coupling with 1/2" connections, etc.

Threaded connections normally NPT - other threads available on request.

Materials:

Couplings are available as standard in Carbon Steel, Naval Brass and Stainless Steel.

Standard seal material - Nitrile

Other materials available on request
